Objective

I am passionate about the latest technologies and want to utilize my existing knowledge to benefit any Company/Firm . I also endeavor to work in challenging environments to enhance my technical and inter-personal skills and develop further as a complete IT professional. I am a quick learner, highly adaptive and like exploring new areas of work. Self-motivation, positive attitude towards life and team work has helped me face various challenges in my life. My objective is to fulfill a responsibility to the best of my abilities.

Education

- **B.Tech in Electronics and Communication Engineering** **CGPA : 6.7/10**
International Institute of Information Technology, Hyderabad
